EXPERIENCE:

TWOTWENTYSEVEN

July 2013 - Present

Designer & Front End Developer

- Work as a member of a very small, fast paced team, delivering high quality design and development solutions to varied clients within short deadlines.
- Played a key role in establishing company coding standards and best practices such as naming conventions, code structure and flexibility practices, CSS pre-processor choice etc.
- Leading new development approaches to ensure efficient and easy mobile optimization via the use of grid systems and modular and flexible code.
- Clients include Brothers Cider, Tick Tock Tea and various high-profile London restaurants.

AMOBEE

June 2012 – July 2013

Designer & Front End Developer

- Role includes production of mobile advertising campaign concepts, designing and building rich media ads, mobile websites and both static and animated banners to high standards and on tight deadlines.
- Introduced new capabilities to the company by creating responsive designs, custom mobile websites/landing pages and HTML5 animated banners.
- Renovated existing processes with more efficient methods by using scripts to automate tasks which previously took hundreds of work hours to complete, specifically in banner exporting processes.
- Clients include Nokia, eBay and Expedia.

D-FORMED
